

MERITOR® PERMALUBE™ RPL SERIES DRIVELINES FOR THE AFTERMARKET

MERITOR

IDEAS DRIVING RESULTS

REDUCED OPERATING AND MAINTENANCE
COSTS. INCREASED UPTIME.

Meritor Permalube RPL Series drivelines were the first in the North American heavy-duty commercial vehicle industry to be permanently lubricated and sealed for life. An innovative idea that drives results like reduced operating and maintenance costs, industry-leading warranties, easy serviceability and extended U-joint life, particularly on gear-fast/run-slow drivetrains.

Consider The Following Competitive Advantages Of Meritor Permalube RPL Series Drivelines

- 2-year/unlimited-mile warranty
- High-torque-rated models available for demanding applications, including heavy service and downspeeding
- Four-bolt design for easy installation and service
- Extended U-joint life:
 - Triple lip seals provide the ultimate protection against contaminants
 - Nylon thrust washers eliminate metal-to-metal contact, preventing wear
- E-coated steel guard secures and protects the slip seal against contaminants and damage
- Partner with a leader – Meritor has been the industry’s driving force in permanent lubrication technology for more than 15 years
- Standard self-aligning center bearing reduces the risk of premature bearing wear due to mis-alignment

Specifications					
Series	U-Joint Rating	Tube Size	Applicator	U-Joint	Slip Yoke
RPL35SD Severe Duty	35,000 N•m	5.204" x .236" wall	Main Driveline	CP35RPLS	3XRLS481A1S
RPL35		4.69" x .230" wall			
RPL25SD Severe Duty	25,000 N•m	4.59" x .180" wall	Inter-axle Driveline	CP25RPLS	25RLS481A1S
RPL25					25RLS489A1S
RPL20	20,000 N•m	4.095" x .180" wall	Main Driveline	CP20RPLS	20RLS402A1S
			Inter-axle Driveline		20RLS403A1S
